# **A Guidance for Protection of Ground Water Resources From The Effects of Accidental Spills of Hydrocarbons and Other Hazardous Substances**

July 1979

GUIDANCE DOCUMENT

PROTECTION OF GROUND WATER RESOURCES  
FROM THE EFFECTS OF  
ACCIDENTAL SPILLS OF HYDROCARBONS AND OTHER  
HAZARDOUS SUBSTANCES

Project Officer

Jentai T. Yang, Ph.D., P.E.  
William E. Bye  
Ground Water Protection Branch  
Office of Drinking Water (WH-550)

U.S. Environmental Protection Agency  
Washington, D.C. 20460

## ACKNOWLEDGMENTS

Versar, Inc. would like to acknowledge the assistance given us by the various Federal, state and industrial organizations. We would like to thank our Project Officer, Mr. William E. Bye, for his guidance and assistance. The assistance of Mr. Thomas J. Charlton, OSMCD, EPA, is greatly appreciated. The comments received from the many state spill-response personnel after Versar's preliminary oral presentation of the Guidance Document in Denver, Colorado, in February, 1978, are appreciated and were given consideration.

Special thanks goes to the members of the review committee set up by the Project Officer and composed of trade association and industrial personnel. Specifically, they are: William D. Shepherd, Shell Oil Co.; Verne E. Farmer, Jr., Exxon Oil Co.; Frederick B. Killmar, American Petroleum Institute; and Edward C. Nieshoff, Owens Corning Fiberglass.

The assistance provided by Mr. Richard L. Raymond of Sun Tech, Inc., on the biodegradation of hydrocarbons is greatly appreciated.

The authors, Mr. Charles E. Colburn, Hydrogeologist, and Mr. Edwin F. Abrams, Program Manager, would like to extend thanks to the following Versar personnel for their capable assistance:

Marcelle L. Brodeur  
Michael D. Campbell (Consultant)  
Drew Comer  
Ralph T. Duckett  
Randy Freed  
Deborah K. Guinan  
Linda Kay  
Harry E. LeGrand (Consultant)  
Jean C. Moore  
Judi M. Robinson  
Robert G. Shaver  
Robert C. Smith, Jr.  
Peggy Waggy

TABLE OF CONTENTS

<u>Section</u>		<u>Page</u>
1	INTRODUCTION . . . . .	1
2	HYDROGEOLOGICAL INFORMATION . . . . .	3
	1. What is Ground Water? . . . . .	3
	2. Ground Water Movement . . . . .	3
	3. The Susceptibility of Aquifers to Contamination from Spills . . . . .	3
	4. Ground Water Hydrology Relative to Spills . . . . .	4
	5. Important Hydrogeological Factors Needed to Evaluate the Course of Action Required in the Event of a Spill . . . . .	7
	6. Spill Site Evaluation - A Numerical Rating System . . . . .	9
3	SPILL DAMAGE ASSESSMENT TECHNIQUES . . . . .	15
	1. Monitoring Wells . . . . .	15
	2. Surface Water Measurements . . . . .	17
	3. Aerial Photography . . . . .	18
	4. Geophysical Well Logging . . . . .	19
4	SPILL CLEAN-UP TECHNIQUES . . . . .	21
	1. Soil Removal . . . . .	21
	2. Trenching and Skimming . . . . .	21
	3. Recovery Wells . . . . .	24
	4. Biodegradation of Petroleum and Chemical Spills . . . . .	25
	5. In-Place Detoxification . . . . .	32
	6. Foams . . . . .	32
	7. Gelling Agents . . . . .	33
5	LAND SPILL PREVENTION AND CONTROL TECHNIQUES . . . . .	34
	1. Prevention Techniques . . . . .	34
	2. Control Techniques . . . . .	38
6	BIBLIOGRAPHY . . . . .	43
APPENDIX A - General Descriptions of the 24 Ground Water Provinces in the United States . . . . .		A-1
APPENDIX B - State Laws . . . . .		B-1
APPENDIX C - State and Federal Spill Response Telephone Numbers . . . . .		C-1
APPENDIX D - List of State Geologists to Call for Further Geological Information . . . . .		D-1
APPENDIX E - A Manual for Evaluating Contamination Potential of Surface Impoundments . . . . .		E-1

LIST OF FIGURES

<u>Figure</u>		<u>Page</u>
1	Generalized Shapes of Spreading Cones at Immobile Saturation . . . . .	6
2	Demonstrates Possible Migration to Outcrop, Followed by Second Cycle of Ground Water Contamination . . . . .	6
3	Oil Moving with Shallow Ground Water Intercepted by Ditch Constructed Across Migration Path . . . . .	22
4	Three Systems for Skimming Water Surface in Ditches or Wells . . . . .	23
5	Oil on Water Table is Trapped in Cone of Depression Created by Drawdown of Pumping Well . . . . .	26
6	Use of Two Wells for Recovery . . . . .	27
